About

Egyptian Steel Fabrication Company, ESF, provides world class services through its extensive experiences in:

- Structural steel engineering
- Storage tanks fabrication and erection

We take pride in employing the best workforce with technological and industry specific domain knowledge that enables us to execute techno critical projects in the specified time schedule without compromising on quality and safety. We are an equal opportunity employer committed to health, safety and environment responsibility of our employees. In addition to the advancement in technology, we have been constantly striving hard to reach greater heights through innovation, value engineering and sustainable progressive growth and in the process providing our valuable customers a comprehensive engineering solution.

Vision

To be the key, esteemed source of business expertise for industries seeking to achieve high quality of producing structural steel engineering and storage tanks fabrication and erection.

Mision

To create exceptional value for shareholders' objectives by producing steel structure and providing construction services to our clients.

Values

- **Integrity**

Having the client in the room will not change anything we say or do

- **Respect**

Our respect for ourselves, our respect for each other and our respect for our client is one

- **Team work**
- **Passion**
- **Discipline**
- **Innovation**

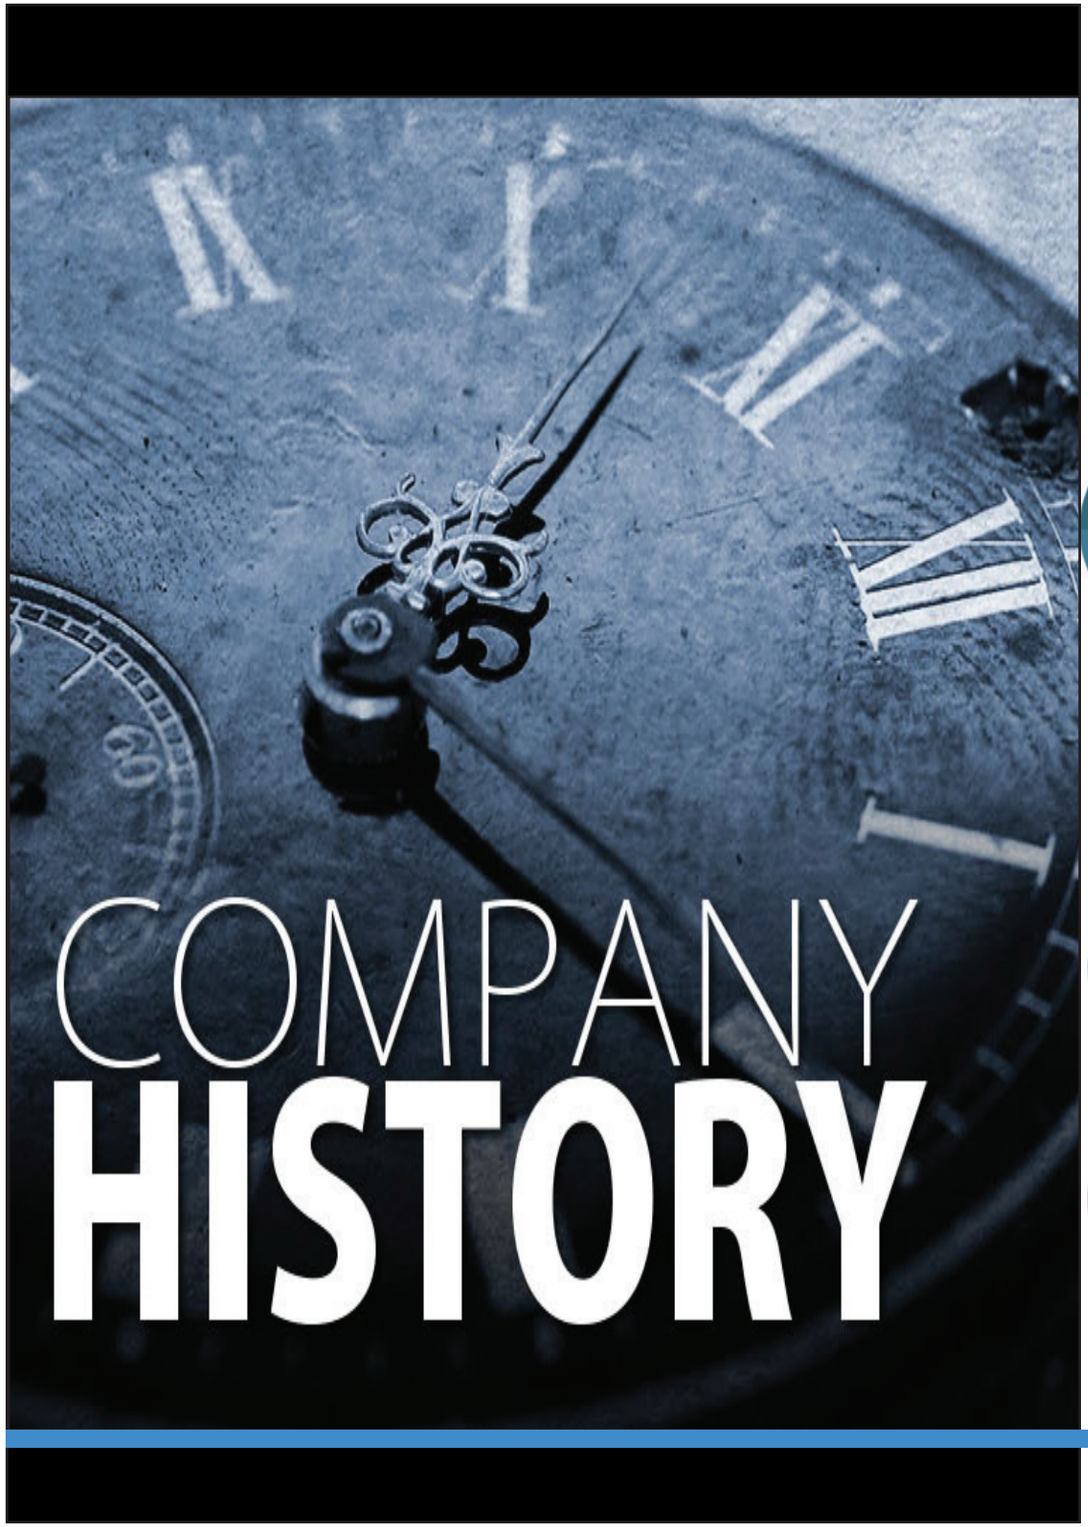

FACILITY INFORMATION

Main Factory: 6th October City, 1st industrial zone, Cairo, Egypt

ESF turnover: 30 Million SAR. Production Capacity: 6,000 tons / year

ESF maintains a 12,600 SQM factory and 15,000 SQM under preparation to increase the steel structure productivity to 1000 tons per month and plate works fabrication to 500 tons per month.

COMPANY HISTORY

2005

Company established as an individual and registered in accordance to the requirements of Egyptian laws.

2008

Company got IAF ISO 2008 - 9001 Since 2008 till now, the company has executed various big projects in different domains, such as Commercial, Oil & Gas, Power & Energy, Food Industries, Water treatment technology, Cement plants..

2016

ESF has a new branch in KSA through joint venture with Rasha Trading Company LTD.

2017

2005 till now ESF became one of the reputed players in structural steel engineering, fabrication and erection offering a full spectrum of specialized professional steel structural engineering and construction services that include associated civil and mechanical works in the MENA market.

OUR Potential Market

- Cement and chemical industries
- Oil & gas services
- Refineries and petrochemical industries
- Food and medical industries
- Water treatment plants
- Water hummer technologies

Steel Structure & Industrial Plant Work

Design & Engineering Division

ESF uses latest software technology such as AutoCAD, STAAD PRO & X STEEL. Besides these, the following software programs are also being used for:

- Piping design and modelling software (CADWORKS, CAESARII, PDMS,...)
- Storage tanks design software using API 650 and API 620(ETANK2000, TANK3.1, ...)
- Pressure vessels design software using ASME code regulations (PVELITE,COMPRESS, ...)
- 3D Modeling and simulation software (SOLIDWORKS,...)
- Finite element design software (COSMOSANALYSIS,...)
- Structure Finite element design software (SAP2000,.....)
- Designs used international codes such as
  -API 650, API 620 & API 653
  -ASME CODE (SEC VIII DIV. I., SEC VIII DIV. II, B31.1 AND B31.3)
  -AD2000 MERKBLATTER
  -ASME CODE B16
  -AWWA 2009, ASTM AND AWS
  -EGYPTIAN CODES OF PRACTICE (ECP)
  -METAL BUILDING MANUFACTURING ASSOCIATION (MBMA)
  -AMERICAN IRON AND STEEL INSTITUTE (AISC)

Fabrication Division

ESF provides fabrication and in-field erection services for your tank construction. With our industry-leading safety record and our experienced technicians, we can construct, fabricate and install your tanks to meet all your requirements and to ASME, AWWA and API standards.

We Help Our Partners With:

- ASME pressure vessels and steel silos
- Shop-built API & AWWA
- tanks Plate rolling
- Plasma and oxy-fuel burning
- Materials including carbon steel, stainless steel, alloys and aluminium
- Piping Spool Fabrication
- Space Frame Structure

Steel Structure & Industrial Plant Work

ESF participated in various projects of steel structure & industrial plant work including cost management, quality assurance and cost control. .

We Help Our Partners With:

- **Power Plants projects (Thermal PP, CCPP ,ISCC PP ,Wind farms)**
- **Water & waste water treatment plants**
- **Field erected storage tanks (API 650,API620)**
- **Petrochemicals projects (Fertilizers Plants,...)**
- **Industries projects (Steel Mills,Cement Plants,Bridges,...)**
- **Oil and gas projects (Refineries,LNG terminals,LNG tanks)**

Commitment To Excellence

ESF was built on a commitment to safely providing the finest quality product, on-time and on budget We pay attention to our clients and employees. Feedback of our clients leads to improvements in safety and quality. The result is repeat business and a high employee retaining rate.

All employees at ESF take pride in their part to our working way. This indicates excellence from administration to estimating, procurement, engineering, fabrication and final field construction. We know that all projects must be built to the highest standards in the business, cost-effectively, and accident-free. Each employee at ESF has spent years in the field and recognizes what it takes to get the job done perfect.

Maintenance services

ESF provides all types of maintenance services by applying the most suitable program:

1- **Run to Failure Maintenance (RTF)**

2- **Preventive Maintenance (PM)**

3- **Corrective Maintenance (CM)**

4- **Improvement Maintenance (IM)**

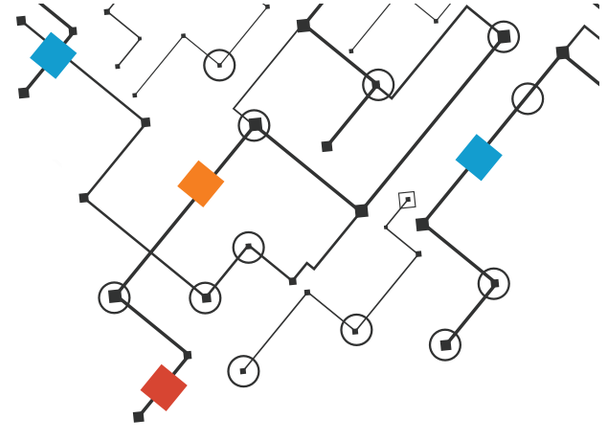

General Manager
Eng.Mohamed ELSherbini

Eng. Mohamed graduated from Cairo University. He has worked in many projects in the MENA market. Eng. EL Sherbini has various and deeply experience in steel & erection industry.

He believes in quality "Quality is the main target of ESF company to get our clients satisfaction. ESF Egyptian steel fabrication company has emerged as one of premier companies working in fabrication of Storage tanks, Pressure vessels,Steel Structure & Steel plate works significantly to the customer's requirements. Within the laid down frame of time, cost and quality, ESF is rapidly moving forward to fulfill the promise of high quality. The achievement of ESF in industrial plant by completing the projects within the time schedule, cost and quality is due to effective achievement of project management control. " said by Eng.Mohamed
